

## Quorum Bike Hub from Bike4Health

### FREE BIKE ASSESSMENT MOT

Get your bike booked in for a free and comprehensive 30point health check.

These assessments provide a great starting point before deciding which of our Service Packs might be best suited to get your wheels rolling smoothly again. Or alternatively select a specific service to fix the problem.

All taken care of at Quorum Bike Hub. Leave your Bike Wednesday and have it back on Friday for most standard repairs and services, subject to parts availability. We aim to complete your repair or service on the day it is booked in for, unless any unexpected replacement parts have to be ordered.

### SIMPLE REPAIRS

We charge an hourly rate of £40 or part thereof. For simple repairs such as fixing a puncture or replacing a tyre it would be £10 plus the cost of parts. We can also fit parts or accessories such as mudguards or lights that you have purchased elsewhere.

### CABLE BRAKE SERVICE - £15

Inner cables replaced, outer cables lubricated. Pads checked, aligned & replaced as required (when purchased from Bike4Health at time of service)

### HYDRAULIC BRAKE SERVICE - £35

Brakes bled, fluid replaced. Pads checked, aligned & replaced as required (when purchased from Bike4Health at time of service)

### CABLE GEAR SERVICE - £15

Inner cables replaced, outer cables lubricated, gears adjusted and aligned, and drivetrain lubricated

### DRIVETRAIN SERVICE - £30

Gear adjustment, bottom bracket removed & re-greased, and drive-train lubricated. Plus, fitting of chain, cassette/freewheel, front/rear mech, chain set & bottom bracket as required (when purchased from Bike4Health at time of service)

### BIKE BUILD SERVICE - FROM £50
